Sustainable Investment Philosophy

The Sustainable Portfolios have an objective of Sustainable Development, investing in funds that responsibly use financial and natural resources to enhance long-term human, social, environmental, and economic well-being. At One Four Nine Portfolio Management (OFNPM) we fundamentally believe that investors are loss averse, not risk averse. Our investment philosophy is built around 3 principles:

- Preserve Capital**
We wish to avoid the permanent loss of capital
- Grow Wealth**
We measure our success by growing capital faster than the rate of inflation
- Manage Risk**
We build efficient portfolios. For a given level of risk we maximise return.

Each Model Portfolio aims to achieve its objectives through investment in a global multi-asset portfolio consisting of equities, bond, commercial property, and other asset classes. Exposure is primarily gained through collective investment schemes (unit trusts, OEICS, investment trusts, ETFs).

Portfolio Manager

Dr Bevan Blair, the Chief Investment Officer of OFNPM, has over 20 years' experience of building multi-asset portfolios, both in the institutional asset management and wealth management sectors. He has previously worked for WestLB Asset Management, Ingenious Asset Management and Tilney. He has a PhD in Accounting and Finance from Lancaster University, and an MSc in Statistics and Operations Research from Victoria University of Wellington, New Zealand. He has an Erdos number of 6.

Risk Profile and Objective

The Adventurous Portfolio aims to deliver a return of UK CPI plus 4% over rolling 5 years.

The Adventurous Portfolio is appropriate for an investor who is comfortable with a high volatility of returns and having up to around 100% of their portfolio in equities. You are comfortable that in **1 year out of 20** your portfolio could **fall by more than 25% in any one year**. Volatility is typically between 12% and 20% and investors should have a minimum time horizon of 5 years, ideally longer.

One Four Nine portfolios are managed on a discretionary basis therefore the investment manager may make changes to the investments held without notice. Investors are agreeing to the investment model as recommended by an Adviser and may not be investing into the specific assets included in this factsheet. The factsheet will be updated and made available as soon as is practicable following a change made by the investment manager. Past performance is not a guide to future performance. The value of investments and the income from them may go down as well as up, so you may not get back the amount you invest. The return may increase or decrease as a result of currency fluctuations.

Consideration should be given to whether it is felt that the outcome of any risk assessment is accurate and advice should be sought for factors such as investment objectives, the investment term, attitude to risk, capacity for investment loss and the level of inflation. This illustrative document is intended for investors where advice has been given by Advisers. Models are prepared in accordance with the stated objective and not client circumstances.
