

HORIZON PORTFOLIO FACTSHEET

30th June 2023

Multi-asset Cautious (DD1)

Objectives

The Multi-asset Cautious (DD1) portfolio targets a total real return of 1% p.a. after allowing for all fees and inflation with a high level of income yield. The portfolio is designed for those looking to create annual income withdrawals either immediately or in the future with a low appetite for risk.

Investment Strategy

The portfolio is invested in 10 to 20 collective funds across a range of investment assets and can include actively managed funds as well as passive lower cost tracking funds. The portfolio invests more heavily in higher yielding bond funds than most typical mixed asset funds with the aim of achieving more predictable returns over the medium term (3-5 years) by way of the predictable bond income earned in the portfolio.

Key Facts

- Initial costs: **nil**
- Forecast average ongoing fund costs: **0.70% p.a.**
- Historic annual portfolio income yield: **4.29% p.a.**
- Inception date: **September 2016**
- Tideway Risk Assessment: **Low Risk**

Key Risks

- Investment values and the income they produce can fall as well as rise, your capital is at risk in this portfolio
- The portfolio contains a mix of lower and higher risk funds, higher risk funds may fall further in value
- The costs of funds may vary from the stated amount which has been provided by the fund managers
- Income yields may vary from the quoted amounts which are provided by the fund managers
- Past returns are no guarantee of future returns
- All the funds used trade daily, however in severe market conditions individual funds can suspend trading

Portfolios are managed by Tideway Investment Partners LLP on behalf of Tideway Wealth Management Ltd.

The value of units can fall as well as rise. Past performance should not be seen as an indication of future performance.

Pricing Spread: Bid-Bid

Data Frequency: Daily

Currency: Pounds Sterling

Performance Calculation

The performance shown is with all income reinvested and after fund costs but does not allow for Tideway's advice and custody charges. At approximately 1% p.a. these will reduce the returns shown by this amount. For further information please ask your Tideway adviser.

Performance is calculated by Financial Express and is for illustrative purposes only and should not be viewed as the return on a specific account. Returns are based on a theoretical model portfolio which each account tracks, but does not take account of cash balances.

Always remember that past performance is no guarantee of future returns and the value of investments and the income they produce can fall as well as rise. Your capital is at risk in this portfolio and you may not get back as much as you invest.

Portfolio As of 30th June 2023

Asset Allocation

Data source: Tideway as at 30th June 2023

Tideway's Asset Allocation Process

Portfolio asset allocation is considered and approved by Tideway's investment committee. Consideration is given to:

- forecast returns and the portfolio's objectives
- diversification of investment strategy and the return outlook and certainty of returns for each asset class
- the portfolios overall risk assessment considering diversification, investment volatility and maximum drawdown

Portfolios are managed by Tideway Investment Partners LLP on behalf of Tideway Wealth Management Ltd.

Tideway's Fund Selection Process

Tideway Manager Selection

When constructing our portfolios, we use a range of funds managed by independent fund managers. At any one time we employ a number of independent managers to look after capital within the portfolio selected based on some of the following criteria:

- An experienced and settled management team with ability to retain key personnel. We prefer a team-based approach rather than star managers and prefer the team to have experience managing money in different economic environments
- Good liquidity in portfolios, which we monitor on an ongoing basis
- Ensure adequate financial capacity for future investment without manager's compromising their investment philosophy or future returns
- A clear and repeatable investment process based on a proven investment philosophy with associated drivers for future returns
- Transparency of the manager; we prefer to employ managers who provide full access to their portfolio holdings and managers for regular reviews
- Managers who incorporate Environmental, Social and Governance (ESG) criteria into their investment process
- Those who focus on fundamentals of the businesses that they invest in and have a consistent methodology when it comes to valuation
- Higher quality of returns; returns are not viewed in isolation. Risks taken to achieve the returns as well as return attribution are taken into account
- Managers whose interests are aligned to their clients with personal monies invested in their own strategies is favourable
- A sufficient level of operational resources to ensure investment strategy can be executed effectively and appropriate safeguarding of assets
- A focus on portfolio risk with an independent risk management function to work in conjunction with the portfolio manager
- Competitive total costs associated with the manager's services relative to their peer group

The funds are monitored on an ongoing basis with regular reviews and with all the portfolio investment decisions going through Tideway's Investment Committee.
